Property Overview

Infomart Ashburn is an 18MW facility across 75,000 square feet and designed to meet the dynamic needs of today's Internet enterprises, cloud computing companies, and traditional enterprises. Infomart Ashburn's retrofit provides customers the ability to benefit from the enhanced resilient design, up to 2N+1 electrical topology, and base building construction standards that were more commonly deployed before the advent of the lower cost speculative wholesale model currently being delivered across the greater marketplace. Located in the epicenter of Northern Virginia's technology corridor, Infomart Ashburn is situated on the Ashburn fiber ring and delivers a connectivity solution that has made Northern Virginia the destination for IT infrastructure.
